In this study we will be looking at good and bad decisions that people make and the consequences of those decisions. We will look at the Bible and what it teaches about our choices and the consequences of those choices.

In the minds of most people, everything has a beginning, a middle and an end. This is the way we think. God has a plan for our lives and our lives will follow where it leads. God's Word provides this information for us.

During His ministry, Jesus established the principles of the kingdom of God. Jesus instituted His church, and He proved repeatedly that He was the Son of God. In the short time Jesus was on the earth, He permanently changed the world. Literally, the world has never been the same since Jesus came, but among all the wonderful things Jesus did, there was one overwhelming purpose in His life. Jesus came to seek and to save that which was lost. His primary mission was the salvation of men. This is the reason Jesus lived, was buried and rose again.

As we learn all we can from the Scriptures about Christ, we can develop a deeper and more meaningful relationship with Him. Since Jesus wants us to know Him, we are given significant information about Christ in the Bible.
