BIBLE BASICS

GOD PROVIDES A REDEEMER

Primary Make & Take

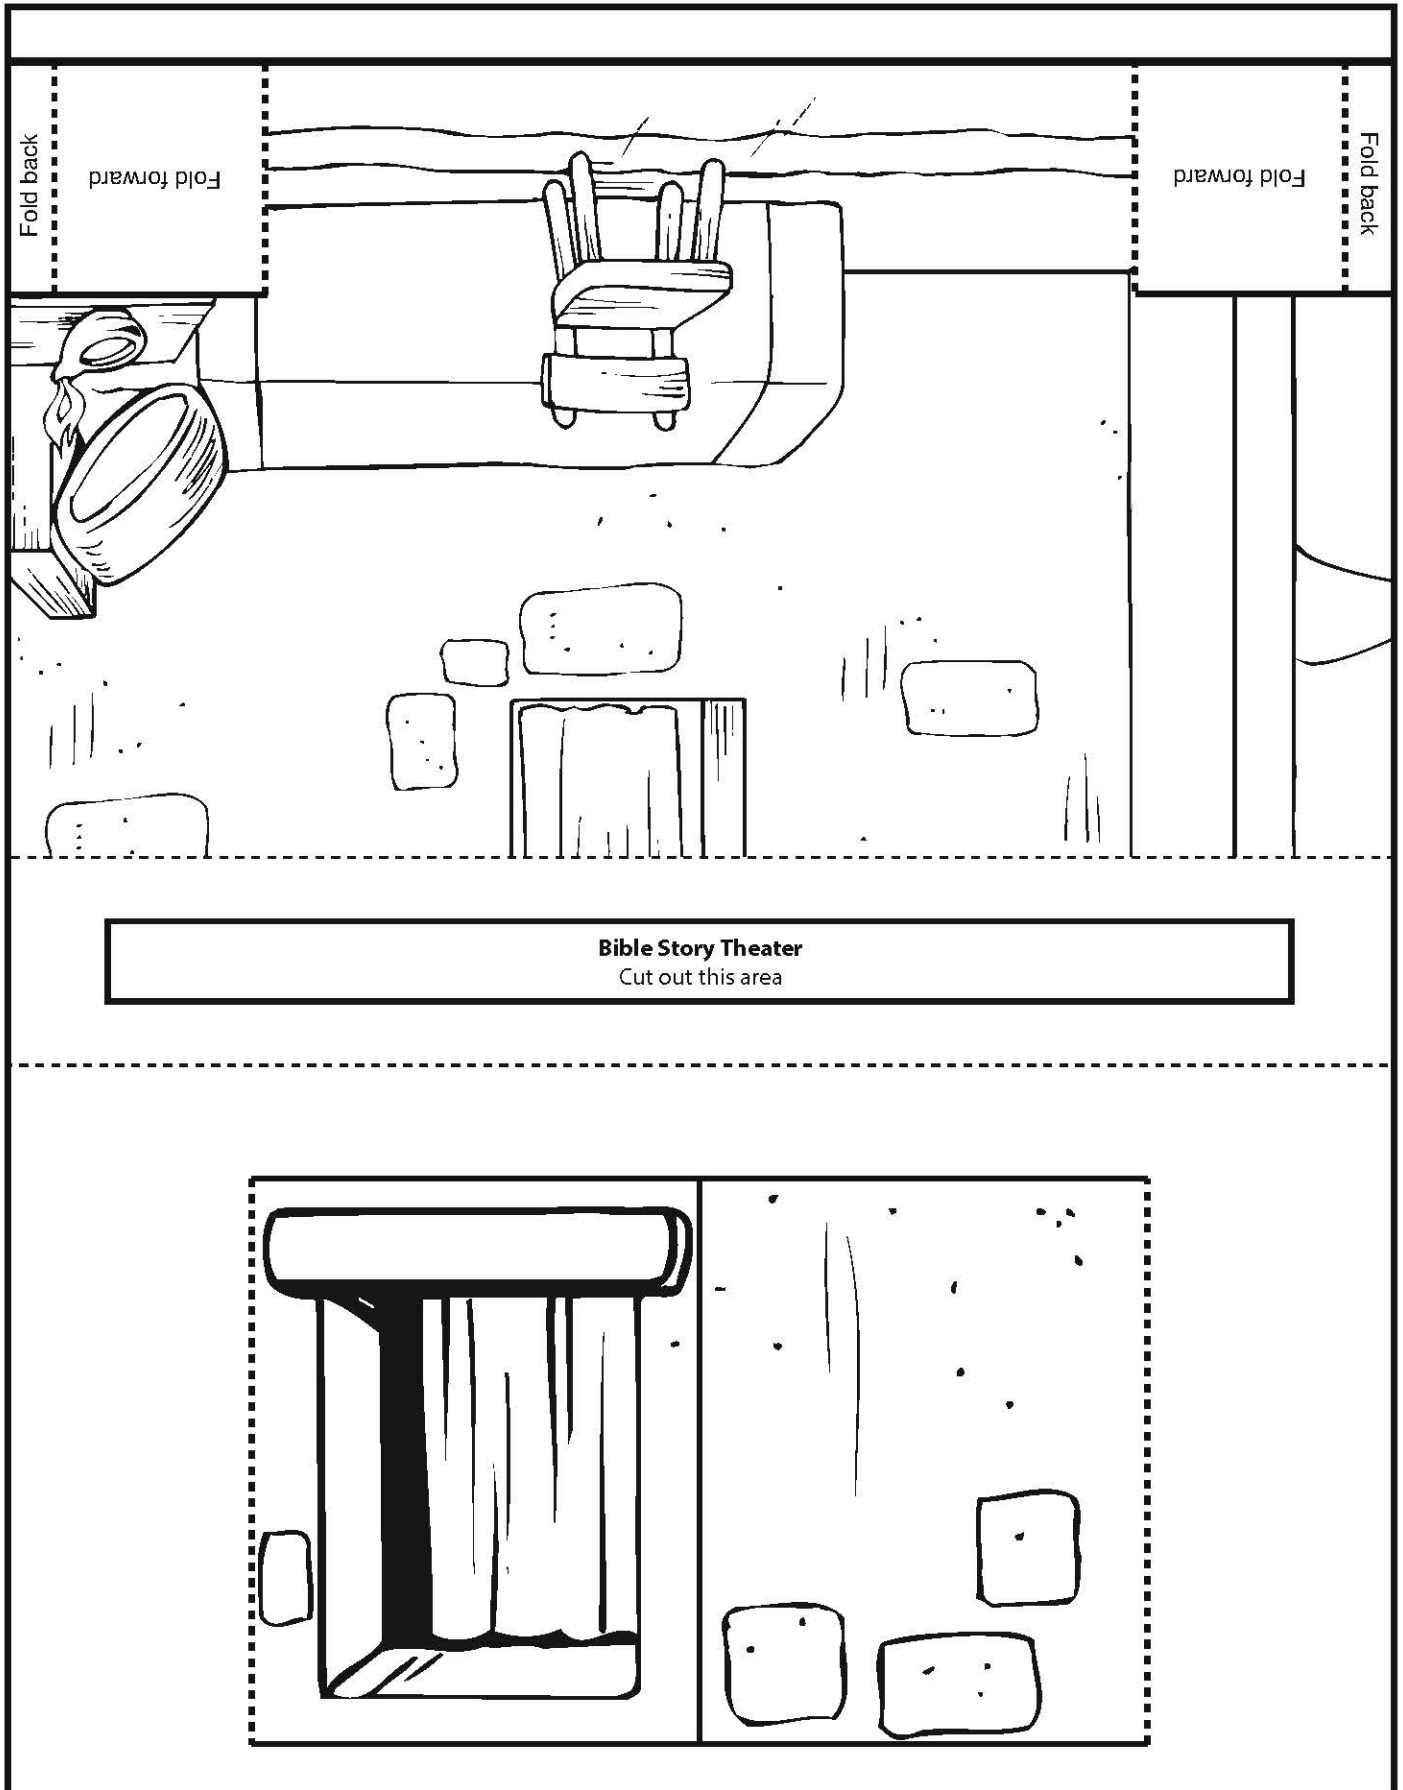

God Provides a Redeemer for His World

Winter Quarter, 2026-2027

Children learn more by personal involvement in the lesson. That is the purpose for these lesson-related projects for learners to make.

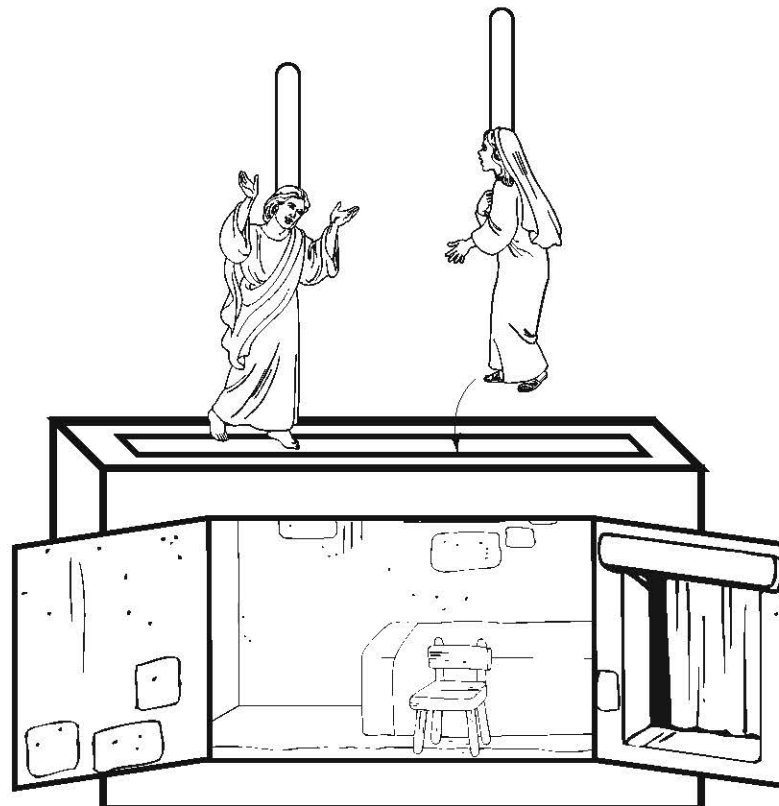

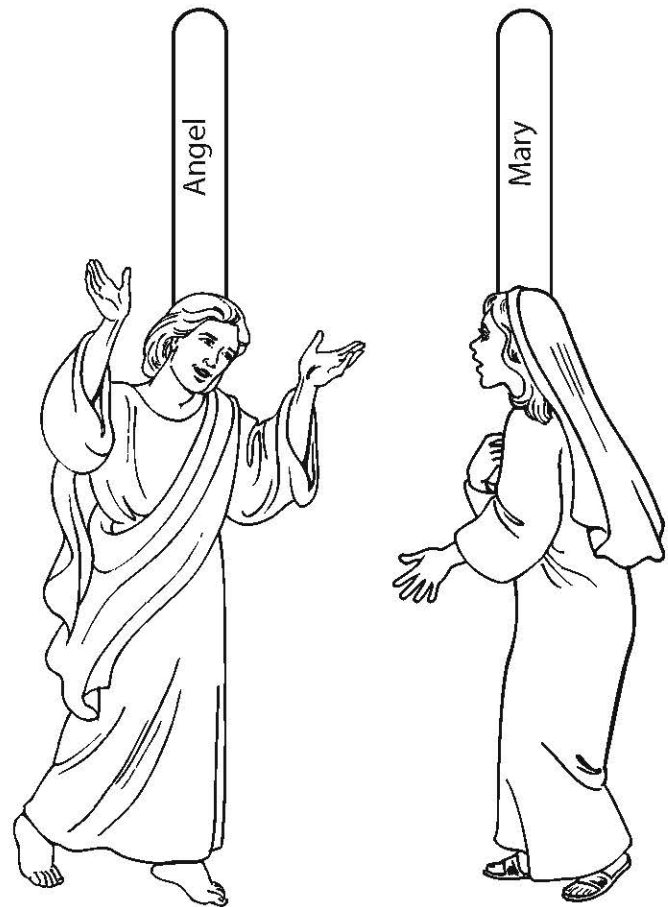

Here is a time-saver tip that will make you happy all quarter. Start with thirteen file folders and label them Lesson 1 through Lesson 13. Remove the cover from all make and take books.

Remove the sticker pages from the center of the books and place in a separate file folder. Open a book at the center fold and use a paper cutter to cut half of the book's pages along the perforation line. Turn the book and cut the pages of the other half in the same way. Repeat this for all the books. Then separate and stack the pages by lessons. File each lesson by number in the file folders. Weekly preparation time is cut greatly with this preparation.

Bible Story Theater and Puppets

1. Color the Bible Story Theater and puppet figures.
2. Cut out theater on solid lines. Fold on broken lines so pictures are inside. Then fold doors open to show the inside of the theater. Fold forward and fold back where indicated on flap. Tape flap to the front of theater so it will stand up. Set it on a flat surface as shown in diagram.
3. Cut out puppets. Hold by handle and insert through top slit in theater. Use the Bible story to present a drama with the puppets.

Shining Light Sun Catcher

Here is a pretty reminder that God chooses you to reflect His love to others. Use brightly colored pencils or crayons to color the design. Cut around the outside circle and punch a hole to hang it with ribbon or string. Hang it in a sunny window where you will see it often.

To make the design more translucent, dip a cotton ball into baby oil or cooking oil and lightly apply it on the sun catcher.
